

## The National Fire Plan

### FY 2001 Programs in New Jersey

#### Overview

The National Fire Plan implements program activities in five key areas across the landscape. These key points are designed to respond to the severe wildfires of 2000, to reduce their impacts on rural communities, and to enhance firefighting capabilities in the future. Estimated National Fire Plan allocations to New Jersey include (\$ in thousands):

Firefighting		Rehab and Restoration	Hazardous Fuel Treatment	Forest Health Projects	Community Assistance				TOTAL
Preparedness	Facilities				State Fire Assistance	Volunteer Fire Assistance	Economic Action Programs	Comm'ty & Private Land Fire Assist..	
0	0	0	0	0	315	150	0	0	465

#### Firefighting Resources

*Staffing the most efficient organizational level (MEL) to provide prompt initial attack suppression on wildfires.*

- Preparedness Organization - Increase resources within the 20-state Eastern Region to 125 engines, 17 dozers, 525 preparedness positions and one Interagency Hotshot Crew.
- Workforce Development - Plan for 274 new hires within the 20-state Eastern Region (includes seasonal, temporary, and conversions to permanent).
- Fire Facilities - Invest in Regional facilities planning support, at a cost of approximately \$2 million.
- Federal Excess Personal Property - Build on estimated \$24 million inventory value of equipment and material loaned to state fire organizations and their cooperators in New Jersey.

#### Hazardous Fuel Reduction

*Targeting fuel management and reduction on high priority areas, especially wildland-urban interface areas.*

- Multiple proposals for hazard mitigation and risk reduction activities on non-federal lands.
- Forest Health Management base program activities help to prevent and control invasive species.

#### Community Assistance

*Enhancing community capacity to reduce wildfire risk and expand local economic opportunities.*

- Approximately \$145,000 in State Fire Assistance will increase organizational and preparedness skills to assist with firefighting efforts, and \$170,000 will support Hazard Mitigation activities. Grants will be used for training and education, fuel reduction and hazard mitigation, and equipment. An additional \$150,000 is allocated in base program funds.
- Approximately \$150,000 in Volunteer Fire Assistance will support training and equipment to meet the needs of a portion of the 129 rural volunteer fire departments in New Jersey. An additional \$72,000 is allocated in base program funds.
- \$985,000 in National Fire Plan Community Assistance will support activities across the 20 northeastern states. Included are:
  - Economic Action Programs to develop and expand markets for wood products from removed fuels; and
  - Community and Private Land Assistance to enhance fire planning in communities, enhance stewardship planning, and fund fuel management.
