

National Fire Plan

Managing the Impact of Wildfires on the Communities and the Environment

Utah State Summary from Department of the Interior

Based on the National Fire Plan, the Department of the Interior (DOI) will implement a number of program actions to reduce hazardous fuels and their adverse effects on forest and range lands, mitigate the impacts of severe wildfires on rural communities, and enhance firefighting capabilities. In Utah, those actions will include the following:

Firefighting Resources

Preparedness

- Hire 35 additional permanent employees and 71 additional temporary and career seasonal employees; convert 44 positions to a more permanent status
- Purchase five new engines and three other pieces of heavy firefighting equipment.
- Obtain under contract three additional single-engine air tankers
- Invest \$3,347,600 in four facilities maintenance and construction projects

Research

Co-sponsor two research projects under the Joint Fire Science Program

Rehabilitation and Restoration

Conduct long-term rehabilitation on 64,675 burned acres - \$8,111,000

Hazardous Fuels Reduction

- Treat fuels on 10,351 acres in wildland-urban interface areas - \$1,125,000
- Treat 34,291 acres to maintain/restore range or forest health - \$4,015,000

Community Assistance

For FY 2001, the DOI was appropriated \$10 million to initiate a pilot program of grants to rural fire districts. The Department expects to assist approximately 830 rural volunteer fire departments nationwide with training, equipment, and supplies to increase their level of preparedness for wildland firefighting.
