

National Fire Plan

Managing the Impact of Wildfires on the Communities and the Environment

Nevada State Summary from Department of the Interior

Based on the National Fire Plan, the Department of the Interior (DOI) will implement a number of program actions to reduce hazardous fuels and their adverse effects on forest and range lands, mitigate the impacts of severe wildfires on rural communities, and enhance firefighting capabilities. In Nevada, those actions will include the following:

Firefighting Resources

Preparedness

- Hire 47 additional permanent employees and 101 additional temporary and career seasonal employees; convert 83 positions to a more permanent status
- Purchase four new engines, one dozer, and four other pieces of heavy firefighting equipment
- Obtain under contract three additional aircraft, including one helicopter, one single-engine air tanker, and one air attack aircraft
- Invest \$4,596,880 in six facilities maintenance and construction projects

Research

Co-sponsor three research projects under the Joint Fire Science Program

Rehabilitation and Restoration

Conduct long-term rehabilitation on 475,390 burned acres - \$24,372,000

Hazardous Fuels Reduction

- Treat fuels on 10,635 acres in wildland-urban interface areas - \$4,260,000
- Treat 64,519 acres to maintain/restore range or forest health - \$4,596,000

Community Assistance

For FY 2001, the DOI was appropriated \$10 million to initiate a pilot program of grants to rural fire districts. The Department expects to assist approximately 830 rural volunteer fire departments nationwide with training, equipment, and supplies to increase their level of preparedness for wildland firefighting.
