

National Fire Plan

Managing the Impact of Wildfires on the Communities and the Environment

FY 2002 Programs in Wisconsin

In August 2000, the President directed the Secretaries of Agriculture and the Interior to develop a plan to respond to severe wildland fires, reduce their impacts on rural communities, and assure sufficient firefighting capacity in the future. The National Fire Plan (NFP) was developed and addresses 5 key points:

- Firefighting;
- Rehabilitation and Restoration;
- Hazardous Fuel Reduction;
- Community Assistance; and,
- Accountability.

The USDA Forest Service and Department of the Interior are in the second year of implementing the National Fire Plan, with allocations to Wisconsin estimated at:

USDA Forest Service Allocations for FY 2002

Firefighting		Rehab and Restoration	Hazard Fuel Treatment	Research R&D JFSP	Forest Health Projects	Community Assistance			Total
Preparedness	Facilities					State Fire Assist	Volunteer Fire Assist	Economic Action Programs	
4,532,707	107,000	150,000	109,000	750,000	455,000	1,073,582	264,905	1,309,265	8,751,458

*Allocations for FY 2001 and 2002 may vary slightly over time due to adjustments in accounting systems.

Department of the Interior Allocations for FY 2002

Firefighting		Rehab and Restoration	Hazard Fuel Treatment	Research JFSP	Community Assistance Rural Fire Assist	Total
Preparedness	Facilities					
800,000	0	0	842,000	0	0	1,642,000

Program Highlights

- Cooperative Fire Protection: Wisconsin has completed a GIS based statewide fire protection assessment down to the county level that identifies high-risk urban interface communities. The Division of Forestry produced a WUI video and

PSAs designed to educate homeowners and communities of the risks associated with living in hazardous/fire prone areas; initiated hazardous fuel reduction activities on 3,400 acres, established over 50 miles of fuel breaks protecting 5,000 homes located in high risk communities and developed mitigation strategies and techniques meant to improve fire protection capabilities in high risk communities

- **Economic Action Programs:** DNR staff hosted the 2001 NA Utilization & Marketing Council meeting. Over 30 state, federal, and non-governmental employees participated in the weeklong meeting and training session.

Fire Preparedness and Facilities

Maintain a cost effective level of preparedness in firefighting and prevention

- **Preparedness Resources**
 - Department of the Interior will have an increase of 19 firefighters, 2 engines, and 1 dozer.
- **Facilities**
 - USDA Forest Service will be providing funding for radio sites, Long Lake guard station I, Washburn hydrants, and Washburn warehouse.

Rehabilitation and Restoration

Rehabilitate fire damaged wildlands and restore ecosystem

- Rehabilitation and Restoration program consists of
 1. Immediate actions to reduce threats to public safety, property and natural and cultural resources, and
 2. Long-term actions to help restore healthy ecosystems and replace infrastructure damaged by fire.
- DOI funding will cover ecological stabilization, reforestation (seeding, cultural protection invasive species, contour tree felling, monitoring);
- USDA Forest Service funding will be used to improve overall watershed condition and restoring severely burned forests and rangelands. Projects include reforestation, watershed restoration, road and trail rehabilitation, fish and wildlife habitat restoration, planting and seeding and preventing invasive plants.

Hazardous Fuel Reduction

Invest in projects to reduce fire risk with focused effort in wildland urban interface areas.

- Approximately 6,686 acres are planned for Hazardous Fuels treatment by Federal agencies, an estimated 1,891 acres will be treated in the Wildland Urban Interface
- An estimated \$951,000 will be spent on hazardous fuels treatment work.
- Forest Health Management funding is estimated at \$455,000.

Community Assistance

Work with communities to reduce the risks of catastrophic fire

- 25 rural/volunteer fire departments will receive assistance from DOI.

- State Fire Assistance (FS): Estimated funding - \$1,073,582.
- Volunteer Fire Assistance Program (FS): Estimated funding - \$264,905.
- Economic Action Program (FS): Estimated funding - \$1,309,265.

Accountability

Establish and maintain a high level of accountability including oversight reviews, progress tracking and performance monitoring

- DOI and Forest Service are developing a uniform set of performance measures necessary to assess program effectiveness these measures will be tracked through a common electronic database by the end of the FY02.
- DOI and Forest Service have developed a uniform process and timeline to identify and complete planning on fuels treatment projects.
- A DOI and Forest Service contracting review has been completed and actions will be initiated to increase the level of contracts for fuels hazard reduction work.
